

REF MNP&D/M/24/742/2017 MINISTER

Date: 15/5/2017

To: Hadia Medical Swiss

CC: Adna Adan Hospital
Hassan Omar Hoori
Director General, MNP&D
Ubah Mohamed
Director of Coordination, MNP&D

SUBJECT: LETTER OF RECOMMENDATION

As a result of the long years of civil war that Somaliland has endured between 1982-1991, many of our previously existing Health Facilities were destroyed and most of our trained Health workers were either killed during that war or fled the country to seek refuge elsewhere.

Hadia Medical Swiss is a International NGO which has a competent professional partnership with our ministry and it engaged in the social development sectors, such as skills training programs on the development of health, feed production for the rural communities in Somaliland. in relation to this, Hadia Medical Swiss has successfully helped the somaliland government to build up the Gabiley Regional Hospital for the last four years.

Consequently, the Government of the Republic of Somaliland encouraged and welcomed anyone who could contribute to the Development and Rehabilitation of our Basic and Essential health and other social facilities as well as towards the training of our health care professionals. Now, the government of somaliland has asked for Hadia Medical Swiss to help to support, Baligubadleh, Salahley Districts and Adna Adan Hospital.

I expect that this you will strengthen our people to cope with droughts effects and build resilience and expand the coping capacities of the rural communities as well as health facilities.

Thanks for your highly consideration and support.

With best wishes,

Mohamed Ibrahim Adan (Qabyo-tire)
Minister of National Planning and Development
