To Whom it May Concern

Re: Hadia Medical Swiss

I have the pleasure to write this letter of support for Hadia Medical Swiss an NGO working in Gabiley Hospital, Republic of Somaliland.

The Minister of Health has worked closely with Hadia Medical Services for a number of years and has found the organisation to be competent and professional. We first entered into a Memorandum of Understanding with Hadia Medical Swiss in April 2013

I can confirm Hadia Medical Swiss has made a significant contribution to improvements to the Gabiley Hospital infrastructure which included the provision of Solar Energy, Backup Generator, new Water Tanks and an overhaul to the sanitation. The NGO has been providing incentives to medical staff and a contribution to hospital running costs. Hadia Medical Swiss has also provided expensive operational equipment, most notably anaesthetic machines and related equipment.

Feedback concerning the organisation from the Regional Health Officer and Hospital Director remains very positive indeed.

The organisation has expressed an interest to work with Burao Hospital which we would very much welcome.

I like would also confirm that we have communicated with the Ministry of Planning and National Development who have confirmed that Hadia Medical Swiss is in compliance with all regulatory and statutory obligations.

Based on our experience and in view of the foregoing we commend the above organisation and view them very worthy of support from donors and governments.

Yours faithfully

H.E. Mahmoud Adam Jama
State Minister of Health
Republic of Somaliland
